FAIRGAME INITIATIVE

Brand Style Guide

Science fairs without barriers.

BRAND FOUNDATIONS

MISSION

FairGame Initiative brings competitive STEM opportunities to schools across Ohio and beyond, completely free. Students in under-resourced schools and rural communities do not lack intelligence or curiosity. They lack the infrastructure, knowledge, and connections to run competitive science programs. FairGame provides everything a school needs to launch and sustain a science fair, from initial planning guides to competition preparation.

TAGLINE

Science fairs without barriers.

THREE PROGRAMS

01 Club Launch

Schoolwide kickoff for schools with fewer than 10 interested students. FairGame helps create a student club and pairs it with a local ambassador.

02 Full Fair Program

For schools ready to run a complete science fair. FairGame supplies resources, coordinates judges, handles fair registration, and supports the teacher throughout.

03 Individual Mentorship

For students at schools without fairs. FairGame matches them with an online mentor and shepherds them through competition registration and paperwork.

VOICE AND TONE

FairGame speaks in a teacher professional tone: encouraging, accessible, and direct. Sentences stay short and concrete. Copy addresses the reader in second person and leads with what the reader gets. Claims stay verified and specific. Avoid em-dashes, filler phrases, and jargon.

LOGO

PRIMARY MARK

The FairGame mark is a chess pawn crowned with a lightbulb, drawn in single-weight line art. The pawn stands for the player every student deserves to be. The lightbulb stands for the idea that gets them there.

GREEN MARK ON LIGHT BACKGROUNDS

WHITE MARK ON FOREST GREEN

RULES

- Keep clear space around the mark equal to the width of the lightbulb on every side.
- Use the mark in Leaf Green, Forest Green, or white only. Never recolor it outside the palette.
- Never stretch, rotate, outline, shadow, or place the mark over busy photography.
- Minimum height in print is 0.5 inches. Minimum height on screen is 40 pixels.

COLOR

The palette is built on deep forest green with a warm salmon pink accent. Green carries the brand. Pink appears sparingly, for emphasis and celebration moments only.

Forest Green

#1C3A1C

Primary. Backgrounds, headers, nav, footers.

Salmon Pink

#E8827D

Accent. Highlights, celebration, callouts.

Action Green

#357A38

Buttons, links, CTAs.

Bright Green

#4A9E4E

Hover states, rules.

Leaf Green

#6AB86E

Logo, accents on dark.

Deep Salmon

#E0615A

Emphasis text, stats.

Mint Tint

#E8F5E9

Light section fills.

Mint White

#F1FAF2

Card backgrounds.

Slate Gray

#6B756B

Body text on white.

Ink

#1A1E1A

Headlines on white.

PROPORTIONS

Aim for roughly 60 percent green family, 30 percent white and mint neutrals, and 10 percent salmon pink. Pink never covers a full page and never carries body text.

TYPOGRAPHY

DISPLAY | ANTON

SCIENCE FAIRS

Anton, all caps, for cover titles and hero statements. Use at 36 points or larger. Never use Anton for body copy.

HEADINGS | PLAYFAIR DISPLAY

Without barriers, every student competes.

Italic Playfair carries pull quotes and taglines.

Playfair Display for section headings, page titles, quotes, and stat numbers. Bold at 20 to 30 points for headings. Italic for taglines and testimonials.

BODY | DM SANS

DM Sans Bold for subheads and labels.

DM Sans Regular for all body copy at 9 to 11 points in print and 16 pixels on the web, with line height near 1.65. It stays readable at small sizes and keeps the brand feeling modern and open.

OVERLINES

SMALL CAPS LABELS WITH WIDE TRACKING

Overlines are DM Sans Medium, uppercase, 7 to 9 points, letter spacing near 0.18 em, in Action Green or Deep Salmon. They sit above headings as wayfinding labels.

DESIGN ELEMENTS

FairGame layouts are flat, sharp, and generous with space. No drop shadows, no gradients, no rounded corners except form inputs at 3 pixels.

OUTLINED BOXES

Find something that interests you.	Notice questions you run into every day.	Plan how you would find an answer.
DISCOVER A FIELD	FIND A PROBLEM	BUILD A PROJECT

BUTTONS

Get Started	How It Works	Donate
-------------	--------------	--------

Primary buttons fill with Action Green. Secondary buttons outline in green on transparent. Reserve the salmon fill for giving and celebration actions. Corners stay square.

PHOTOGRAPHY

Use real, candid photographs of real students and mentors at fairs, judging tables, and award moments. Warm light, genuine expressions, diverse representation. Frame photos inside thin green borders on dark layouts. Never use staged stock photography when a real program photo exists.
