

JUDGE CODE OF CONDUCT

Every FairGame judge agrees to these standards. They protect students, schools, and the integrity of every fair.

■ **Professionalism**

Arrive on time, complete your assigned interviews, and represent your profession well.

■ **Objectivity**

Score against the rubric only. Set aside bias about schools, equipment budgets, or presentation style.

■ **Confidentiality**

Keep scores, deliberations, and student information private. Results are announced only at the awards ceremony.

■ **Respect for students**

Treat every student with patience and encouragement, whatever the quality of the project.

■ **Appropriate boundaries**

No contact with minors outside the structured event. Interviews happen in open, public spaces. Follow all event chaperone rules.

■ **Conflicts of interest**

Do not judge your own child, a relative, or a student you have mentored or taught. Report any conflict to the event coordinator before judging begins.

Judges also complete a background check consent as part of the judge application. Schools require proof of screening for every adult who interacts with students.
