

ACKNOWLEDGMENTS AND THANK-YOU LIST

Every science project has people behind it. Track who helped so nobody gets left off your board.

WHO HELPED, AND HOW

Name each person and say specifically what they did. Vague thanks read as filler; specific thanks read as honest.

NAME	THEIR ROLE	WHAT THEY DID	THANKED?

WRITE YOUR ACKNOWLEDGMENTS PARAGRAPH

Two to four sentences. Include it on your board and in your paper.

EXAMPLE

I thank Ms. Alvarez for supervising my data collection and reviewing my procedure, my mentor Dr. Chen for explaining how to read the research on soil drainage, and my brother for helping me build the testing frame.

SEND A THANK-YOU NOTE
