

QUESTION AND ANSWER FLASHCARDS

Cut along the lines and practice with a partner. Write your own answer on the back of each card. These are the questions judges ask most often.

Why did you choose this topic?	Can you explain your hypothesis?
CARD 1 MY ANSWER ON THE BACK	CARD 2 MY ANSWER ON THE BACK
What were your variables, and how did you control them?	How many trials did you run, and why that many?
CARD 3 MY ANSWER ON THE BACK	CARD 4 MY ANSWER ON THE BACK
What surprised you about your results?	Did your results support your hypothesis?
CARD 5 MY ANSWER ON THE BACK	CARD 6 MY ANSWER ON THE BACK
What other factors might have affected your results?	How confident are you in your conclusions?
CARD 7 MY ANSWER ON THE BACK	CARD 8 MY ANSWER ON THE BACK
If you could do it again, what would you change?	What would be your next step in this research?
CARD 9 MY ANSWER ON THE BACK	CARD 10 MY ANSWER ON THE BACK
How does your project relate to real-world applications?	What did you learn that you did not expect?
CARD 11 MY ANSWER ON THE BACK	CARD 12 MY ANSWER ON THE BACK

ANSWERING WELL

Answer directly, use your real numbers, and say honestly when something is unknown rather than guessing. Judges score understanding, not perfection.
