

PROJECT IDEA INVENTORY

Good projects sit where your interests, your skills, and what you can actually get your hands on all overlap. Work through the three parts in order.

PART 1: WHAT ALREADY INTERESTS YOU

List freely. Nothing is too small or too ordinary.

THINGS I ENJOY OR AM CURIOUS ABOUT	PROBLEMS I RUN INTO REGULARLY	SUBJECTS I DO WELL IN

PART 2: WHAT YOU CAN ACTUALLY ACCESS

Be honest here. A project you can run beats a project you can only imagine.

Equipment or tools I can use at school: _____

Materials I can get easily at home or a store: _____

People who could help me: teachers, family, mentors, or professionals: _____

How much time I have each week: _____

PART 3: WHERE THEY OVERLAP

The best project sits where interest, skill, and access meet. Write three ideas that draw from all three columns above.

NEXT STEP

Take your strongest idea to the Topic Brainstorming Worksheet, then turn it into an if, then, because statement with the Hypothesis Worksheet.
