

SELF-ASSESSMENT RUBRIC

Judges score five things. Score yourself first, honestly, a week or two before the fair. Anything you rate 3 or below is exactly where to spend your remaining time.

Scientific thought

I can explain my question, my background research, and why my hypothesis made sense.

1 2 3 4 5

circle one

Creative ability

My idea and experiment design are my own, and I solved problems along the way.

1 2 3 4 5

circle one

Thoroughness

I ran enough trials, kept complete records, and finished every part of the project.

1 2 3 4 5

circle one

Skill

I measured carefully, collected data properly, and used my equipment correctly.

1 2 3 4 5

circle one

Clarity

My board is organized, and I can explain my project out loud without reading it.

1 2 3 4 5

circle one

MY LOWEST SCORE IS IN _____

THIS WEEK I WILL IMPROVE IT BY _____

PRACTICE OUT LOUD

Prepare a five-minute version of your project and practice with family and friends. Judges want to meet the scientist behind the board.
