

PROGRESS CHECK RUBRIC

Score the journal and the data collection in progress. This rubric rewards steady, honest work rather than finished results, so a student mid-experiment can still earn full marks.

USE AT WEEKS 6 TO 9, DEPENDING ON GRADE BAND

CRITERION	4 EXCEEDS	3 MEETS	2 APPROACHING	1 BEGINNING
Journal consistency	Every work session is dated and recorded, including short ones and sessions where little worked.	Sessions are dated and recorded with few gaps.	Entries exist but skip multiple sessions.	Journal is nearly empty or written all at once after the fact.
Quality of observations	Observations are specific and measured, and note what was seen, heard, or recorded each trial.	Observations are specific for most trials.	Observations are present but general.	Observations are missing.
Data collection progress	Data table has real entries on schedule, with three or more trials underway or complete.	Data table has real entries and collection is on schedule.	Collection has started but is behind schedule.	No data collected.
Handling setbacks	Changes to the plan are documented with a date and an explanation of the reasoning.	Changes to the plan are documented.	Changes happened but are not written down.	Problems were ignored rather than addressed.
Source records	Full citation details were captured for every source at the time it was found.	Citations are recorded for most sources.	Some sources are noted without full details.	No source records.
